

### **AMENDMENTS TO THE DRAWINGS**

Please amend Figures 8 and 9 as follows; replacement figures have been included with this response. In Figure 8, the spring bias pin has been replaced with screw 40, as per Examiner's instructions. Similarly, in Figure 9, the spring bias teeth have been replaced with screw 40, as per Examiner's instructions. Both Figures 8 and 9 have been amended to depict the second axial bore noted in amended claim 1. Furthermore, Applicant submits new Figures 14 and 15 that depict the use of a spring bias pin and spring bias teeth, respectively, as alternatives to screw 40, as per Examiner's instructions. Applicant has not introduced any new matter by these amendments.
